

# Terms & Condition

## Preventing Drunk Driving

Many smokers, after a night of drinks, may decide to take a risk and drive/ride out looking for cigarettes late at night. This can lead to a lot of unfortunate accidents which nobody wants. Quickk hopes to prevent this by giving these customers the option of quick, trusted home delivery.

## Reducing Public Smoking

Our Government is making strong efforts to curb public smoking in the interest of all citizens, and having a cigarette delivery service right to your doorstep resolves that issue for many smokers. As we grow and cover more hours of each day, we can help reduce that much public smoking.

## Ages 18+ (Protect Minors)

Quickk firmly agrees with all laws prescribed in the Cigarettes and Other Tobacco Products Act (COTPA 2003), especially the complete ban on smoking by anyone under 18. Our riders do not hand over cigarettes unless a valid ID is shown proving age over 18,

## No Loose Cigarettes

Our Government clearly chooses to ban the sale of loose cigarettes as far as possible. We therefore strictly deliver only packs, and one can never order any loose cigarettes. We also wish to make it clear, we do NOT deliver or help with any products or substances other than cigarettes, and will report any inquiries for illegal substances straight to the relevant authorities.
